Universal Technologies Corporation

Electrical Spiral Storage Technology

With the application of UTC's Spiral Electrical Storage Technology and systems, electrical power can be stored safely for days, weeks and even longer. The electrical power is delivered at the desired MW-HR rate to the transmission systems.

World Class Benefits :

1. Reliable, safe and continuous AC electrical transmission in MW
2. Overpower emergency electrical power-critical situations and incidents
3. Control over unexpected electrical power shutdown and monetary losses
4. Absolutely no batteries and its massive associated storage systems and infrastructure
5. 100% Green Power
6. Absolutely no emissions and greenhouse gases
7. Savings in the \$ millions / year
