

Energy Generation

*Limitless to Infinity . . .
Technologies for 100% Green Electrical
Power Generation and Bluer Skies*

*Unlocking the Mysteries of
Nature and the Universe*

Universal Technologies Corporation

Energy & Electrical Power Generation Technologies

Mega Spiral Steam Cycles (MS²C) - Green Power (Power Plant)

Generates 50 - 150% additional electrical power with no additional fuel

Spiral Hybrid Cycles - Green Power (Global Industries)

Converts any high, medium or low level heat into electrical power

Spiral and Helical Power Cycles - Green Power (Industrial and Transportation Vehicles)

Converts any low or medium level heat into electrical power

Direct Orbital Power - Green Power (Without Fossil Fuels - No Combustion)

Directly converts the Earth's electromagnetic / gravity grid into electrical power - limitless energy

Torque Gen Cycles (Transportation Vehicles)

Converts the incombustible fuel (1 - 3%) in automotive, locomotive and heavy transportation vehicles into fully combustible in the internal combustion (IC) engine, thus enhancing the actual performance of the IC engine for higher mileage and smokeless operation

Technologies Only Offered by Universal Technologies

Imagination is the Limit
