*Lowering the Capital and Operational &  
Maintenance Costs*

Universal Technologies Corporation

# Petrochemicals - Ultra Efficient Complex Technologies and Systems

## *New, Existing and Future Units*

Universal Technologies Corporation (UTC) has developed Technologies and Systems for reducing capital and operational & maintenance costs of existing and new Petrochemical Units. UTC Technologies have no impact on the licensed process technologies and their respective unit operations.

## *UTC Technologies*

- Energy Mapping Technology (EMT)
- Gravity Application Technology (GAT)
- Dynamic Integration Technology (DIT)  
(Multi-Dimensional System)
- Spiral Power Technology (SPT)

At least 15 - 20% of the capital costs can be reduced for each unit. Furthermore, with the incorporation of UTC's Infrastructure Matrix Technology (IMT), another 15 - 20% of cost savings can be achieved for the entire Petrochemicals Complex.

***The Technologies and Systems for Future Petrochemicals are currently available.***

**Technologies Only Offered by Universal Technologies**

***Imagination is the Limit***
